

## Our own STD campaign

---

### Activity Description

#### **Content & Goals:**

It is the teenagers themselves who know best what a campaign should be like to draw their attention. Working in small groups, they will design an educational campaign about STD. The exact subject (STD in general, one specific disease) and the form of realization may be defined by the teachers or by the pupils. The activity can be done with or without a competitive character. The school may want to install an online area in which the project results can be placed publicly or semi-publicly.

#### **Realization:**

- Can be integrated into classes
- Cross-disciplinary goals are possible (Biology, English, Art Education, Philosophy, Computer Science/Data Processing/Word Processing)

#### **Variations:**

Designing exercise; team work; several variations possible in realization, e. g. poster design, flyer design, creation of an audio/video contribution, design of a website, creation of a power point presentation

#### **Requirements of material and media:**

Equipment needed depending on variation

#### **Time requirements:**

- **Preparation time:** low time need (up to 1 hour)
- **Need of class time:** at least 3 double periods ( 3 x 90 mins.) or one half/full project day (depending on the variation)
- **Wrap-up time:** low time need (up to 1 hour)

### International Links

The pupils present their campaigns to each other.
